

# Homework Assignment #1

Dmytro FISHMAN, Anna LEONTJEVA

February 13, 2014

## 1 Task 1

Use your own experience and understanding of data mining techniques to come up with the problem that fits perfectly to be solved by the means of Data Mining. Describe it. Make an example of the data. What are the features. How many observations needed to solve it? Explain what is the type of the data (temporal, spatial, stream, etc.), type of your features? What are the techniques and approaches that can be used to solve it?
